Are you feeling old? Perhaps the last few months or years have not been your best and you suddenly realize that time has gone by, leaving the undesired traits of the passage of time in your skin. Have you looked in the mirror recently and seen somebody different ... much older than you? If any of these apply, the next few lines are dedicated to you.

At Southwest Plastic Surgery we have the perfect solutions. Many people are not ready for an invasive procedure, but think that only surgery will help them achieve their desired goals. This is why we have invested in the latest technologies and products that will allow you to rejuvenate, restore, and revive without the need of more expensive or invasive procedures.

TAKE 5 YEARS OFF IN 30 MINUTES

| By: SOUTHWEST PLASTIC SURGERY |

Some of the products available to you include the latest in non-invasive treatment of bags under your eyes called Neotensil®. Southwest Plastic Surgery is the exclusive practice in El Paso and Las Cruces where you can experience the difference. With Neotensil®, a silicone elastomer-based product, your eyes will rejuvenate with a single application. This product can be used on a daily basis (just under makeup) and will tighten the skin of the lower eyelids, making those undesired lines and bags fade away for up to 24 hours.

Injectables including Botox®, Juvederm® and Voluma® can restore the fullness of certain areas of the face – such as the cheekbones or nasolabial folds – and remove wrinkles, restoring the youthful look recently lost.

Platelet Rich Plasma (PRP), alone or in combination with Microneedling, can give you back the texture and quality of youthful skin by activating the regenerative properties of the skin. Laser and light treatments, including the

famous BBL Forever Young, can completely eliminate stains and dark spots, vascular lesion or redness, and wrinkles, giving you the shine and texture of a baby's face in just one treatment.

These minimally-invasive treatments combined with the skincare line of products can maintain the results for longer periods of time, making your skin shine and revive – bringing up the best of you.

After every treatment you have the option of a free makeup session to be able to go right back to work or a busy life without evidence of treatments. The only thing we won't be able to hide is how much younger you will look in just 30 minutes.

Call us today for more information on the many options available to you at our top-of-the-line Medical Spa at Southwest Plastic Surgery to Renew, Restore and Revive.
